Message from the President

Congratulations, Class of 2017!

On behalf of the entire University of New Mexico community, we are proud to honor your achievements today. We call this celebration a “commencement” because the word means “a beginning or start.” This new beginning signals the end of one path, but it is also the start of lifelong opportunities for adventure and success. Commencement is a tradition that marks the intersection of the past and the future. In New Mexico, we know the value of traditions. Our rich culture is founded on the wisdom that has been handed down from our elders, and is our legacy from all the individuals who have strived to make their way in this rugged, beautiful land. Our traditions keep us connected to the lessons of the past. Our traditions are also the launch pad for our future. Today, as we honor your accomplishments as graduates of the University of New Mexico, we are celebrating your endless possibilities. Great universities foster discovery in every discipline. At UNM, we wish to give our graduates the courage and wisdom to ask challenging questions and the perseverance and skill to discover the answers. As you look ahead, I hope you will apply that spirit of inquiry in all aspects of your life.

In times of uncertainty and turmoil, remember that your education has prepared you to take on the world. I hope you will build on all that our University has given you. You can take knowledge to new heights. You can dare to imagine, then realize your greatest dreams. You can make a better world, a better community, a better family, and a better self through the power of your education. Again, congratulations!

Always remember that you have a home here at the University of New Mexico. You are part of the pack.

Go Lobos!

Keynote Address

Faith Ruth Roessel

Faith Roessel is a UNM Law School graduate and lawyer who has had a diverse career in law, policy, government, education, and advocacy focused on persons and communities of color especially families, children, and youth. Her current work focuses on understanding and breaking down stereotypes about American Indians and tribal governments through communication, cross-cultural exchange, and experiential education. Faith’s work identifies local community involvement, ownership, and empowerment as a means toward just and equitable solutions that take all voices into account.

Faith continues to serve in the leadership of several national organizations devoted to advancing opportunities for American Indians and Alaska Natives. She is currently the President of the Board of Directors of the Association on American Indian Affairs, where she also acted as interim executive director; on the board of Americans for Indian Opportunity, located in Albuquerque; and on the Leadership Council of Convergence – Center for Policy Resolution. Within these organizations, Faith aims to engage youth, promote the educational and socio-economic attainment of American Indians and other at-risk communities and, most importantly, create dialogue and understanding as a basis for solving problems.

Inspired by her parents’ pioneering leadership in the fields of American Indian education and self-determination, Faith has spent her legal career advocating on behalf of American Indians before all branches of government. Faith served in the Department of the Interior as Deputy Assistant Secretary for Indian Affairs; as Special Assistant to the Secretary of the Interior; and chair of the Indian Arts and Crafts Board. Prior to entering federal service, under then President Peterson Zah, Faith reestablished and directed the Navajo Nation Washington Office, the primary liaison between the Navajo Nation government and federal legislative and executive branch officials; served as senior staff attorney for the Native American Rights Fund; and worked as a legislative assistant for US Senator Jeff Bingaman (NM ret.). She was appointed to the White House Presidential Advisory Board on Tribal Colleges and Universities. And is a former board member of the Child Welfare League of America and of the American Bar Association’s Commission on Opportunities for Minorities in the Profession.

Throughout her career Faith has sought to connect her professional work to her home community of Round Rock, Arizona on the Navajo Nation, where she and her four siblings were raised by their parents, the late Robert and Ruth Roessel. A decade ago, Faith and her sons created a community service-learning trip to broaden the educational opportunities and experiences for native students in Round Rock and in Arizona and New Mexico and for high school students from the Washington, DC area. In addition, she and her sons organize school supplies and backpack drives for Navajo schools and work with the Round Rock senior center to provide clothing, care packages, and holiday dinners for Navajo elders.

Faith is an enrolled member of the Navajo Nation. She and her husband reside in the Washington DC area and have three sons. All three of Faith’s sons are active in advocacy on behalf of Navajo and other American Indians and tribes and on issues of diversity and inclusion.

Commissions

The Reserve Officer Training Corps, ROTC, commissions officers into the United States Armed Forces to serve the nation in Active, National Guard, or Reserve units. Since World War I, ROTC has produced the majority of our nation’s military leaders. The concept of training and commissioning the military’s junior leaders at colleges and universities across the country has become an integral part of providing our nation’s military with well rounded, educated officers. ROTC students experience a traditional college life while also receiving leadership and military training. UNM is one of the few schools in the nation to have all four military services represented on campus.

Ronald E. McNair Scholars and Research Opportunity Scholars

The McNair Scholars Program and the Research Opportunity Program prepare promising first-generation and low income and/or underrepresented students for graduate school with the eventual goal of earning a doctorate. The McNair Program is federally funded and ROP is state funded, with all scholars participating in the same two-year, academically rigorous preparation including the completion of a faculty-mentored research project. Scholars from McNair/ROP programs have earned graduate degrees in more than 80 universities nationwide and that number continues to grow each year.
